The following misprints appeared during the final stages of production:

page 173, line 5: read n_k instead of *nlzk*;
page 173, line −4: insert an opening parenthesis after SUB$_i$;
page 174, Lemma: all *SUB* or *CALL SUB* should read SUB or CALL SUB,
and also, the first displayed line should have read $\mathbf{b}_0 := \mathbf{b}$;
page 175, Corollary: all *SUB* or *CALL SUB* should read SUB or CALL SUB;
page 178, line 4: insert a closing parenthesis after t_2;
page 178, lines 4–8: all unsubscripted subscripts *i* should read i;
page 179, lines 24–26; CALL POLVE should read CALL POLVLE;
page 181, line −13: insert a closing parenthesis after [2].
